

**Names:** Aditi Patel, Aakaash Prakash Hemdev

**Group:** 40

**Note:** Every page will have the option to go back and log out. Only home pages to admin and users won't have a go back option.

## 1. LogIn Page

Welcome to Photo Gallery!

Username:

LOGIN

- If the user logs in with the correct username then it will take the user to the user's home page.
- If Admin logs in with username "admin" then it will take admin to their home page.
  - **Note:** If the entered username is wrong, the user or admin will be denied access.

## 1. Admin Home page.

Welcome to Photo Gallery Admin! [Log out](#)

Name	Username
No content in table	

Name:

Username:

[Create User](#) [Delete User](#)

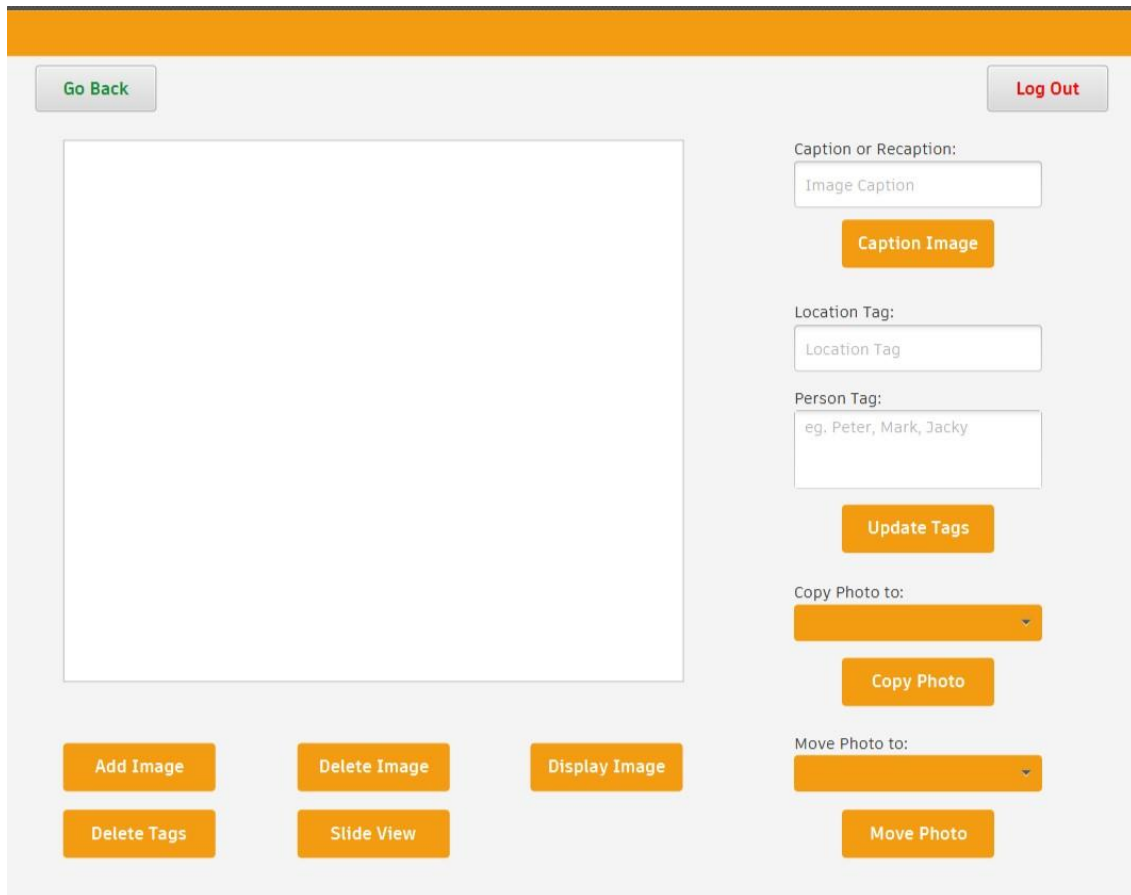

- Admin will be able to see the user's name and username in a table view.
  - Admin can select the user from the table view and can delete it.
  - Admin can enter the user's name and username to create a new user.
    - It won't allow the admin to create a username if it already exists.
    - Name of the user can be same but every user will have unique username
- Admin can anytime log out using the logout button and their data will be saved. Same goes with if the admin suddenly closes the application.

## 2. User's Home page

The interface features a light gray background with a prominent orange header bar at the top. The word "Albums" is centered at the top of the main content area. On the right side, there is a "Log Out" button with red text. Below this, the "Create new album:" section includes a text input field labeled "Album Name" and an orange "Create" button. The "Rename selected album:" section also has a text input field labeled "Album Name" and an orange "Rename" button. At the bottom right, the "Search:" section contains a text input field with the placeholder "Tags, yy-mm-dd To yy-mm-dd" and an orange "Search Photos" button. On the left, a large white square is intended for a listview of albums. Below this square are two orange buttons labeled "Open" and "Delete".

- The white square will have the listview to show the albums.
- Users can select albums to open and delete.
- Users will have the option to create a new album, rename an album, and search for images.

### 3. Album Page

The image shows a web application interface for an album page. It features a large white square in the center for displaying images. To the right, there are input fields for 'Caption or Recaption:', 'Location Tag:', and 'Person Tag:', each with a corresponding orange button. At the bottom, there are several orange buttons for 'Add Image', 'Delete Image', 'Display Image', 'Delete Tags', 'Slide View', 'Copy Photo', and 'Move Photo'. A 'Go Back' button is in the top left, and a 'Log Out' button is in the top right.

Delete Tags Slide View

- White square will show the listview of images and its date and captions.
- Selected images can be deleted, displayed, copied, moved, and we can delete their tags.
- We can recaption an image.
- Users will be provided with their album list as a dropdown choose box, and they can select an album to copy or move the image.
- It will have the option to go back to the previous scene or log out. In that case all the data will be saved.

#### 4. Add Image

The screenshot shows a web interface for adding an image. On the left is a solid orange vertical sidebar containing two buttons: 'Go Back' in green text and 'Log Out' in red text. The main content area has a light gray background and is titled 'Add Image' in bold black text. Below the title are three input fields: 'Location Tag' with 'N/A', 'People Tag' with 'eg. Peter, Mark, Jacky', and 'Caption' with 'N/A'. An orange 'Upload File' button is positioned below these fields.
